willwen96@gmail.com | (858) 319-6175 | [linkedin.com/in/junhui-wen-73141421a/](https://www.linkedin.com/in/junhui-wen-73141421a/) | Green Card Holder
With four years of experience in CS through work and projects, I am eager to better the society as a future software engineer, leveraging my strong problem-solving skills and strong self-discipline.

SKILLS

- Programming Languages: **Java, HTML, Swift** (proficient); **C/C++, Python, SQL, JavaScript** (competent); **TypeScript, NoSQL, Rust, Go, C#** (prior-experience)
 - Technologies: Vue, React, React Native, Docker, MongoDB, MySQL, Redis, SwiftUI, AWS, Git
-

EXPERIENCE

Software Engineer (Google, CO)

Mar. 2025-Present

- Designed and implemented end-to-end user-facing AI features in Google Drive, enhancing system responsiveness and driving an **20%** increase in user engagement.
- Migrated legacy codebase to **Swift**, driving test coverage from **40%** to **90%** and significantly improving system stability and maintainability.

CyberArchWarehouse Intern (Qualcomm Institute, CA)

Mar. 2023-Sep. 2023

- Implemented a custom **Unreal Engine** plugin capable of seamlessly uploading panoramic images and dynamically rendering them onto spherical textures within the real-time geographic location.
- Created a **user interface** that enhanced efficiency by reducing form completion time by **20%** through a streamlined image upload process using **API integration**.

Back End Developer Intern (QTrade, Shanghai)

Jul. 2021-Aug. 2021

- Collaborated with colleagues in completing data synchronization tasks over 100,000 pieces of data by executing **Java** programs that employed **SpringBoot, NACOS**, etc.
-

PROJECTS

iOS App (MemoHub)

Jun. 2024-Mar. 2025

- Led a team of **3 engineers** and **3 designers** in the ongoing development of MemoHub, increasing team velocity by 30% through effective task prioritization and **Agile methodologies**.
- Streamlined front-end logic to **reduce API calls by 33%** and **loading time by 40%**, enhancing user experience with faster page responsiveness.

Web App (Goal Tritons Career)

Jul. 2022-Jun. 2023

- Developed a **web crawler** script independently to collect periodically updated information from UCSD's career website, automating manual tasks and increasing efficiency.
-

EDUCATION

B.S./M.S. in Computer Science and B.S. in Applied Mathematics

University of California San Diego, CA

Sep. 2019-Dec. 2024

- GPA: 3.8 (B.S.) / 3.9 (M.S.) Provost Honors (2019-2023)
 - Main courses: Data Structures & Algorithms, Web Design, Software Engineering, OS, Database System, Cloud, AI/ML, Network, Human Computer Interaction, Recommender System
-

ACTIVITIES

- Rubik's Cube: 2*2, 3*3, 4*4, Pyraminx, Blindfold. National Rank: 3000+
- Team Sports: Tennis (HS Varsity Team captain), frisbee, soccer, badminton, etc.
